INSIGHTS & RECOMMENDATION

Insight 1(Target Audience): Men 45-60 delivers the lowest CPA at 152,609 while Men 25-34 has the highest CPA at 155,014 making them the least efficient audience.

Recommendation: Shift budget toward Men 45-60 and reduce spend on Men 25-34

Insight 2(Channel Performance): Instagram delivers the highest ROI at 4.01 while pinterest delivers the lowest ROI at 0.72 despite similar spend levels.

Recommendation: Reduce Pinterest budget immediately and reallocate to instagram and twitter

Insight 3 (Customer Segment) : All segments show identical conversion rates at 0.08%. The problem is not audience targeting.

Recommendation: Audit the post-click experience, landing page speed, checkout process and mobile responsiveness before increasing ad spend.

Insight 4 (Campaign Goal): Market expansion delivers the lowest CPA at 152,740 making it the most cost efficient campaign goal.

Recommendation: Prioritize market expansion campaigns over increase Sales campaigns which have the highest CPA at 154,532.

Insight 5 (Overall Finding): Conversion rate is uniformly 0.08% across all audiences, channels and segments, indicating the advertising creative and targeting is not the problem.

Recommendation: The business should invest in improving the customer journey after the click rather than increasing ad spend on any single channel or audience
